Gary:

We were not able to find a price locally for those units provided without the operator. We did use the 130 barrel for one day according to my recollection. I will have Steve check in RCMS to verify.

Could you guys not find a 3rd market price for the 70 bbl and the 130 bbl? Also, we will be looking at our all rates database from contracts across the country to see that the rates offered fall in line with those.

Also, I don't remember using SWS's 130 bbl on the site so I am assuming that we are getting a price incase we need to run our own waste somewhere. Is that correct?

Thanks

Gary Moore
